## Background

The U.S. Citizenship and Immigration Services (USCIS) now requires the UCF visa signatory for foreign nationals to perform a “deemed export attestation” and under certain circumstances obtain a “deemed export” license. The information on this form must be accurately collected from the faculty sponsor and is part of UCF’s due diligence for deemed export controls. It will be used to submit responses to USCIS and assist with evaluating if a “deemed export” license is required. The government may have a policy of denying licenses with regard to certain types of technology. UCF has a compliance program in place to assist with this attestation requirement. Please contact the Office of Research & Commercialization, Export Control Officer at (407) 882-0660 should you require assistance. Additional information for hiring foreign nationals is available on the Export Compliance website at: <http://www.research.ucf.edu/ExportControl/I-129.html>
